

Fuel consumption and CO₂ emission of passenger cars

Make	Hyundai
Model	Tucson
Version	1.6 T-GDi 150 AUT Techno Plus GPS Heated
Fuel	Seats Adaptive Cruise
Gearbox	Petrol
NOx emission (g/km)	Automatic
	0

Fuel consumption measured according to official test cycle CO₂ emission measured according to official test cycle CO₂ is the greenhouse gas that plays the most important role in global climate change.	0 l/100km 0 g/km
---	--

CO₂ emission compared to the average of all models

(with the average being 139g/km CO₂)

Year of application	2019
Test procedure	WLTP

A guide to fuel consumption and CO₂ emission with data for all models of new passenger cars is available on the website "energieverter", www.schoneauto.be. In addition to the fuel efficiency of a car, driving behaviour and other non-technical factors also determine the fuel consumption and CO₂ emission of a car. Regular and good maintenance of the car in accordance with the manufacturer's instructions also promotes a reduction in fuel consumption and CO₂ emission. See the Royal Decree of 5 September 2001.
